SIC CODE: 541519, 541513, 541618, 541690

DUNS/UNIQUE ENTITY ID NUMBER: US8TMM4P62B1

iFORTRISS is a premier cybersecurity service provider focusing on Managed Security Services (MSSP), Cybersecurity Governance, Risk & Compliance (GRC) Consulting, and Penetration Testing. We specialize in cybersecurity compliance and MSSP services for Defense Contractors that are required to meet stringent cybersecurity regulations, such as NIST 800-171, Cybersecurity Maturity Model Certification (CMMC) Levels 1 & 2. We are proud to employ veterans and highly experienced CMMC Certified Assessors (CCAs) and Professionals (CCPs) with various security clearances.

Due to market demand, we have extended our defense-grade MSSP services to deliver robust security solutions across North America, enhancing the security posture for commercial businesses, educational institutions, and government entities facing evolving cyber threats. In order to tailor a solution for our clients to meet their specific business objectives and unique organizational needs, we offer a unique set of defense-grade cybersecurity tools to prevent, detect, respond, and proactively hunt for threats in their environment.

Our solutions are designed to ensure that an organization's security infrastructure, from technology to personnel, operates at peak efficiency with ongoing security control review and strategic remediation recommendations. We streamline operations through automation, continuous risk monitoring, and proactive defense mechanisms. Our approach integrates real-time data collection aligned with NIST & CMMC standards, vastly improving the efficiency of compliance processes and reducing the labor involved in security controls review.

Cybersecurity Governance, Risk, & Compliance (GRC) Consulting Services:

iFORTRISS's Cybersecurity GRC Consulting Services provide a systematic approach to meeting various federal and industry-specific compliance standards. This holistic strategy incorporates advanced cybersecurity tools, experienced DOD certified personnel, detailed compliance documentation, and a reporting dashboard, all aimed at simplifying the compliance journey for organizations across the Defense Industrial Base, local government organizations, educational entities, and commercial businesses.

- Security Controls Gap Analysis (NIST & CMMC) & Remediation (POAM)
- Cybersecurity Maturity Model Certification (CMMC) Assessment Preparation (L1,2)
- Asset Inventory & Classification
- System Security Plans (SSP)
- Policy & Procedure Development
